FRAM-E EINDELOZE MOGELIJKHEDEN

Bij Fram-e ontwerpen we modulaire kadersystemen die functionele oplossingen combineren met een sterke visuele uitstraling. Van stijlvolle wand tot opbergsysteem, van eye catcher tot functionele backbar, onze frames groeien moeiteloos mee met jouw ideeën.

De kaders zijn gemaakt van hoogwaardig aluminium en afgewerkt met een duurzame poederlak, zo combineren onze systemen uitstraling met stevigheid. Elk onderdeel is herbruikbaar, waardoor je telkens opnieuw kunt bouwen aan een uniek geheel. Dankzij de veelzijdigheid in aankleding, denk aan forex, hout, voile, peesdoek, planten, verlichting of decoratie, geeft het elke ruimte een eigen sfeer en karakter.

Met oog voor detail en een sterke visuele impact helpt Fram-e om het maximale uit elke vierkante meter te halen, zonder in te leveren op stijl, beleving of flexibiliteit.

FUND

Goede reis gehad?

Voor de reisbewegingen van onze bezoekers hebben wij 100 ton CO₂ uitstoot gecompenseerd door bij te dragen aan het project van FairClimateFund: Cookstoves voor koffieboeren in Ethiopië.

Dit project ondersteunt kleine koffie ondernemers in hun strijd tegen de gevolgen van klimaatverandering, door 40.000 schonere cookstoves te distribueren waarmee het houtgebruik en de CO₂-uitstoot met 40% verminderen.
